NEWS RELEASE

TRADING SYMBOL: CUI.V

Date: May 27, 2004

Currie Rose Resources Inc. has been informed by the Company's joint venture partner, JML Resources Ltd. (**TSX-V : JJJ**), drilling has resumed at the Scadding gold property located 50 kilometers east of Sudbury, Ontario. The Company plans to complete 10 holes totalling 1,000 meters.

Drilling at Scadding will focus on testing the continuity of several recently discovered gold zones including the 16 and 17 Zones where high grade gold values were intersected over appreciable widths (Press Release April 22, 2004). Gold mineralization at Scadding is associated with zones of intense brecciation, albite and chlorite alteration, pyrite and visible gold.

Ken Lapierre, P.Geo., is the qualified person of JML Resources Ltd. And is responsible for the contents of this release.

ON BEHALF OF THE BOARD OF DIRECTORS
CURRIE ROSE RESOURCES INC.

"Harold Smith"
