NEWS RELEASE

TRADING SYMBOL: CUI

August 16, 2007

DRILLING COMMENCES AT THE MABALE HILLS PROJECT, TANZANIA

Currie Rose Resources is pleased to announce that drilling has commenced at the Mwamazengo gold discovery on the Mabale Hills project in central Tanzania which forms part of the Lake Victoria Joint Venture with Australian-listed Sub-Sahara Resources NL (ASX: SBS).

Ground work in preparation for drilling has been on-going at Mwamazengo and the current drill program will test the extension of mineralization at depth and the potential southern extension of the discovery.

A multi-purpose drill will provide both Reverse Circulation (RC) and diamond drilling capabilities so as to return the best possible result.

The last drill program at Dhahabu, 5 km north of Mwamazengo returned one hole (MBNR024) with significant drill results. Trenching and geophysics are being completed and further drilling is planned.

The results will be announced over the coming weeks.

ON BEHALF OF THE BOARD OF DIRECTORS

“Harold Smith”
Harold Smith, President

The qualified person for the release of this exploration information is Michael Griffiths, MAusIMM, Director of Currie Rose Resources Inc. And Chief Executive Officer/Director of Sub-Sahara Resources NL.
